

Dear Parents:

We appreciate that you are considering becoming part of the Stepping Stones family! We love the opportunity to help our students learn and grow and we strive to cultivate a fun and academically sound environment here. While our main focus will always be on the children, our new initiative is to improve communication with our parents. Our goal is to increase parent engagement, messaging, and the safety and security of the children. We want you to feel more connected to your child and their day.

The Procure Connect program and app will help us achieve this goal and help simplify your day. Here is what you can expect:

Sign In & Out: Once you have entered your child's classroom the teacher will hand you the tablet to sign in/out your child. Please select your name within the list of approved contacts and then click sign out.

Online Billing: Pay bills directly from your smartphone! Simply add your bank account or credit card to the billing section, then pay when we send our invoice*.

*Please note there are transaction fees associated which are listed when you add your payment accounts.

Parent Engagement: Get more involved in your child's day. Teachers can now take fun pictures throughout the school day and send them directly to your phone. Easily view, download, and share pictures** with others. Teachers will update activities throughout the day and you will receive daily reports of your child's day!

**For privacy, photos that contain multiple students will not be available for downloading and/or sharing.

We look forward to better communication! If you have any questions getting set up, please look at this help article:
