Child's Name: _____ D.O.B: _____

Grade in the fall: _____ Parent Signature: _____ Date _____

*The dates circled are the dates my child will attend Summer Camp. If I need to change this schedule, I agree to contact management regarding any changes. I agree to pay for the dates circled, unless I give ONE MONTH'S NOTICE to change my child's schedule.

There will be additional charges for field trips

Stepping Stones Early Learning Center Summer Camp 2019

Welcome to Summer Camp!

June:

Week 1, June 10th – 14th Theme: Buggin' Out

We will spend the week exploring all kinds of bugs, while engaging in all sorts of Buggy Science, crafts, sensory. We will even create our own kind of bug! Digging in the dirt and finding new crawly discoveries will keep us busy, as we begin to form new summer friendships. We will end the week with a visit from "The Bug Guy" - Yes, real Creepy Crawlers!

Week 2, June 17th – 21st Theme: Fear Factor

Get ready to work on overcoming your fears! We will have many obstacles, and challenges ahead this week. How brave can you be? We will cheer each other on as we try new things. Team work will get us through! We will take those challenges with us on our "Glow Mini Golf" field trip this week.

Week 3, June 24th – 28th Theme: The Magic of Camp

This week we will throw together camping, magic, and a little friendship! We will learn how to make s'mores using solar power! Let's work together and use our engineering skills to pitch some tents, and explore the fun of camping outdoors! Can you have your friend disappear, then reappear again? We will play a fun game called "Abra-ka-dabra" to find out. It will be fun having a real scientist onsite for a Mad Science Magic field trip.

July:

Week 4, July 1st – 5th Theme: Party in the USA

We have a short week with the 4th of July Holiday. Let's celebrate with Red, White, and Blue! Our STEAM will revolve around fireworks, patriotic colors, and America. We will even connect with Military to send them some special things we create together. Chef Peter will pack us a lunch and we will picnic at Legacy Creek Park this week.

Week 5, July 8th – 12th Theme: Gold Rush

Who's going to get rich? Let's pan for gold and graph our success. We will learn many different gold mining techniques. What is it like to spend your days on the search for gold and treasure? We will mix up gold glitter and make some fun gold slime together. It should be a good break from all that panning as we take a trip to the Bowling Alley. We cannot wait to see all the riches we find this week!

Week 6, July 15th – 19th Theme: Amazing Race

Ready, Set, Go! Get out your checkered flags, it's time to begin the race! This week we will build tracks using all sorts of interesting materials, from pool noodles, marble tracks, spaghetti noodles. We will make some predictions, and see what tracks were most successful. We will also spend the week racing each other in many ways, during many games, and relays. We will take our bikes to a local track and race BMX style!

Week 7, July 22nd - 26th Theme: Animal Planet

Living in the wild this week! We will explore all the animals around the world, as well as their habitats. The kids will work together in teams and choose an animal to report to the class about. This will be a great team building activity as well as help build those skills needed to feel comfortable speaking in front of others. Our Yoga this week will be focused around all kinds of animals, so get ready to stretch! We will jump on the Zoo-Mobile (Bus) and head to the Jungle/Arctic (Como Zoo), it should be a wild adventure!

August:

Week 8, July 29th – August 2nd Theme: Tropical Paradise

Let's head to the beach this week! The kids will make some beach balls, hula -skirts, and sunglasses, as we enjoy a Luau themed dramatic play area. The kids will make BBQ skewers, and drink from real pineapples and coconuts! I bet they will be able to find many good vegetables in the garden to create their own tropical meal. Yum! Everyone is sure to enjoy "ocean themed sensory, art, and math activities. It wouldn't be a trip to paradise without some Deep Sea Fishing! Get ready to cast out your lines, and see who catches the largest catch. Then it's back home on a plane to Minnesota summer, where we will visit "The Shoreview Community Center's Tropic's Water Park." What a tropical adventure!

Week 9, August 5th – 9th Theme: Time Travelers

1...2...3 O'clock...4 O'clock...ROCK! Let's travel back in time as we experience all the fun that the 50's-90's entail. We will try out some "old dance moves, while we listen to some old Pop & Rock and Roll music. We even have a special guest stopping by. Here's a hint... he is the "King of Rock and Roll", so please don't step on his "Blue Swede Shoes". Everyone get ready for some great contests, as we Limbo, Hand Jive, Hoola Hoop, and Break Dance our way through the week! Get your roller skates on as we head to "Cheap Skate" to roll around together!

Week 10, August 12th – 16th Theme: Culinary Cultures around the World

Nutrition and cooking are huge parts of our weekly curriculum. This week we will focus on different cultures around the world, and the foods, herbs, and spices that are popular in their dishes. The kids will use their sense of smell, to do a math guessing activity. Using the map and Atlas's will help us discover all sorts of interesting things about our world. We will also take a look at each other's culture's to learn more about each other. Turning the classroom into our own "School Age Kitchen" will be the most fun of all! We will work together to make all sorts of dishes from many cultures. Let's even make our own "cooking show", with "How Too" steps. We Can't wait to find out what your favorites are. We will take a visit to a local Pizzeria and create our own homemade pizza and salad. Delicious!

Week 11, August 19th – 23rd Theme: To the Extreme

This summer has been full of intense fun! We are going to end things with some extreme ropes courses, relays, water fun and friendship building games. Our science experiments will be extremely creative, inventive and "out of this world"! We will challenge ourselves as we take a trip to Urban Air, for some rock climbing, dodge ball, trampoline, and obstacle fun. It should be an EXTREMELY EXCITING week ahead.

Week 12, August 26th – 30th Theme: Inventors Workshop

It's our final week together before beginning the 2019 School Year. The kids will get their STEAM BRAINS in motion as they work together to create their very own inventions! Maybe it will be a new form of transportation, maybe a new candy? Who knows, the sky is the limit! The Summer Camper's will work through the process of all that is entailed in creating something new. They will then engineer their own Prototype/Model to share with parents and families at our "End of Summer Inventors Fair". We absolutely cannot wait to see what amazing ideas they will come up with. We look forward to an exciting week and event!

Extra Special Activities:

Along with weekly field trips, we will also be offering a variety of different "specials". This includes weekly visits to Legacy Creek Park, located next right to Stepping Stones! We also have water day and bike day that take place on campus! The kids will also be fully in charge of gardening, and will enjoy a cooking activity with Chef Peter once a week. Please watch for more information on these throughout the summer.

"Healthy Bodies, Healthy Minds" - Introducing Sports Camp!! :

Healthy Bodies, Healthy Minds"! Yoga Class will be in and outdoors daily, as well as a new addition, "Sports Camp"! The kids will work with their teacher individually to learn and strengthen skills in each sport activity. They will learn how to come together as a team, and use Character Education to cheer each other on. We will end our "Sports Camp" with a Parents vs. Kids Kickball game!! The weekly Sports Themes are as follows: Lacrosse, Soccer, Baseball, Kickball, Volleyball, Bean Bags, Frisbee Golf, Tar Hockey, Flag Football, Capture the Flag, and Basketball.
